

ISHIKA DUTTA

MCA student with a strong foundation in software engineering, full-stack development, and AI-powered applications. Experienced in building scalable web applications and IoT-based robotics projects through internships, hackathons, and academic work. Passionate about solving real-world problems with technology and continuously learning new tools and frameworks.

Delhi, India | ishi.dutta2004@gmail.com | www.linkedin.com/in/ishika-dutta-7a6233380 | <https://github.com/IshikaDutta2004> | <https://ishiportfolio.netlify.app>

EDUCATION

Master of Computer Applications (MCA)

Amity University Haryana | Batch 2025-27 (**Current CGPA: 8.33**)

Bachelor of Computer Applications (BCA)

Trinity Institute of Innovation in Professional Studies, GGSIPU, Delhi | Batch 2022-25(**CGPA: 7.42**)

Class XII - CBSE

Chhotu Ram Public School, Delhi | Passing Year – 2022 | **Percentage- 73%**

Class X - CBSE

Chhotu Ram Public School, Delhi | Passing Year – 2020 | **Percentage- 68%**

TECHNICAL SKILLS

- **Languages:** Java (Advanced), Python, C++, JavaScript, SQL
 - **Frontend:** React.js, Tailwind CSS, HTML, CSS
 - **Backend:** Node.js, Spring Boot
 - **Database:** MongoDB, SQL
 - **Tools & Technologies:** Git, GitHub, VS Code, REST APIs
 - **Concepts:** DSA, OOP, DBMS, Operating Systems
-

EXPERIENCE

AI Resume Analyzer & ATS Checker

- Built an AI-powered application that analyzes resumes, calculates ATS compatibility, and provides personalized suggestions for improvement.
- Implemented resume parsing and keyword matching to compare resumes with job descriptions and improve recruiter visibility.
- Tech Stack: React.js, Node.js, Python, Flask, MongoDB, REST APIs.

Software Development Intern — CodeSoft

- Developed responsive web applications using HTML, CSS, JavaScript and React.
- Built reusable UI components that improved maintainability.

- Collaborated using Git/GitHub in an Agile workflow.
- Optimized webpages for responsiveness and faster loading.

Autonomous Robotics Project (IoT-Based Navigation System)

- Developed an autonomous robotic system integrating multiple sensors, improving obstacle detection accuracy through optimized sensor fusion techniques
- Designed and implemented navigation algorithms, enhancing movement efficiency and real-time decision-making
- Spearheaded IoT integration enabling self-monitoring and control via connected systems

PROJECTS

Vogue Vista – Full Stack E-commerce Platform

- Developed a responsive fashion e-commerce platform, improving user engagement through modern UI/UX using Tailwind CS
- Implemented full-stack MERN architecture, enabling seamless product browsing, cart management, and secure transactions
- Optimized frontend performance, reducing load time and enhancing user experience

Travel Buddy – Smart Travel Guide Application

- Built a travel assistance application integrating hotel booking logic and transportation APIs for real-time planning
- Designed efficient backend services to manage user preferences and itinerary generation
- Enhanced user convenience by providing dynamic travel recommendations and booking options

CERTIFICATIONS

- Successfully completed the **Cisco Packet Tracer course**, gaining hands-on experience in network configuration, routing, switching, and network simulation.
- Successfully completed the **Ediglobe training program**, strengthening practical knowledge in software development and industry-relevant technologies.
- Successfully completed an internship at **Ediglobe**, contributing to project-based learning while enhancing technical, problem-solving, and teamwork skills.
- Successfully completed **30 hours of training** in **Elementary Data & Analytics, Communication Skill Building, and Job Readiness** under the Women in Data Program.

ADDITIONAL HIGHLIGHTS

- Strong problem-solving skills with a focus on scalable and efficient solutions
- Proven ability to work in fast-paced, team-driven environments
- Passionate about building impactful tech solutions in AI, IoT, and robotics
